The benefit of
crypto as easy
as using usd
for merchants
and customers.

A young man with dark hair, wearing a red t-shirt, is looking directly at the camera while working at a stall. He is leaning over a large orange plastic bin that is filled with crushed ice and a bag of colorful sticks. To his right, another orange bin is visible, with a pink plastic bag tied to its side. In the background, another person is seated at a table, and various items are hanging on racks, suggesting a market or shop environment. A large yellow circle is superimposed over the center of the image, containing the text "Simplify Your Selling".

Simplify
Your
Selling

What You See is What You Get

Confusion **Free**

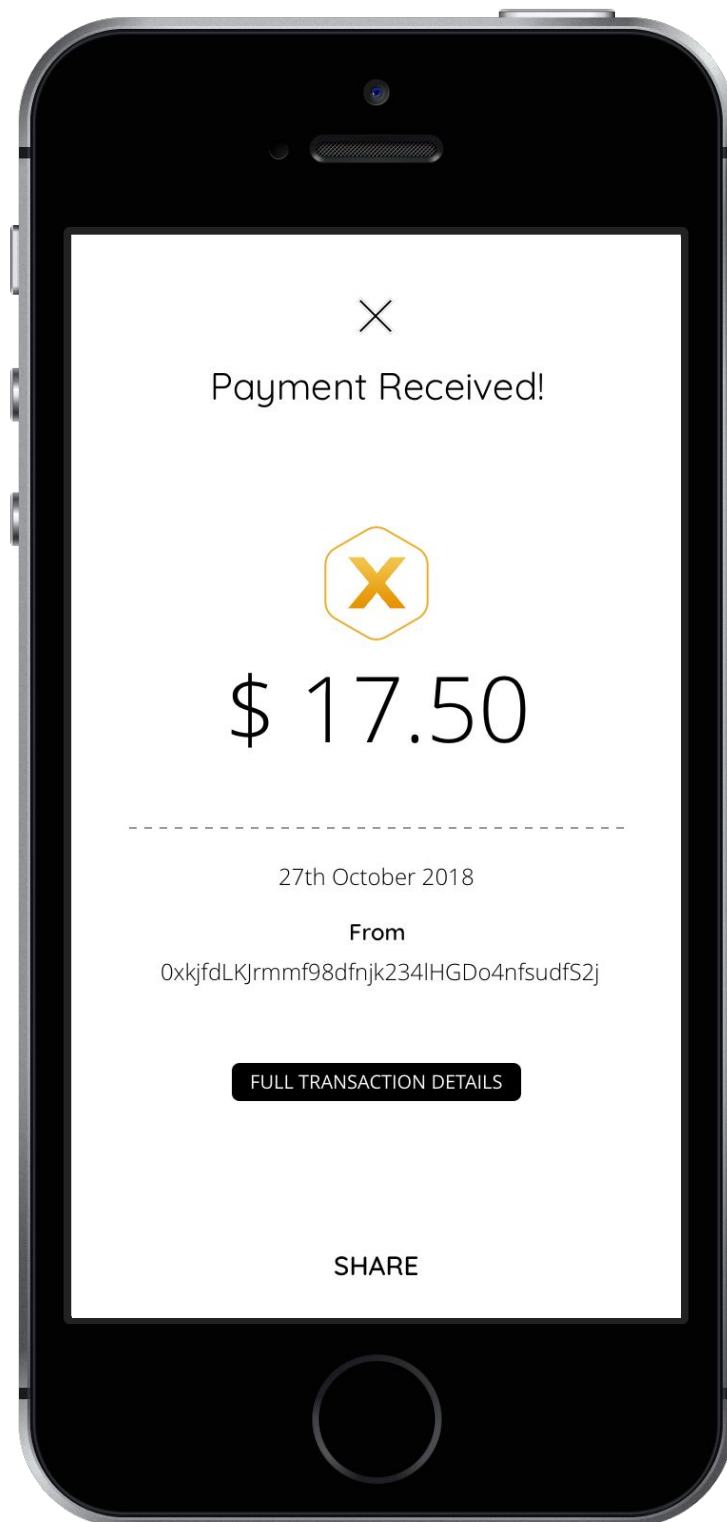

No need to Convert.
Use xDai as native Currency

1 xDAI
=
1 USD

Conversion **Free**

No Extra Costs.
No volatility

Features Overview

1

xDAI Chain, the first ever USD-Stable Blockchain!

xDai Chain, an Ethereum compatible sidechain with Dai as the native currency of the network.

2

Just like USD but on the Blockchain.

It's so easy people won't believe they're using crypto.

3

Public Address Only

Go risk free. With xPay there's no need to put your pvt key on the device so no-one can steal it or hack it.

4

Incredibly Fast.

With avg 5 seconds per transaction, the end user experience is as good as it gets.

5

Pay gas fees in a single token

xDAI is all user need in their wallets.

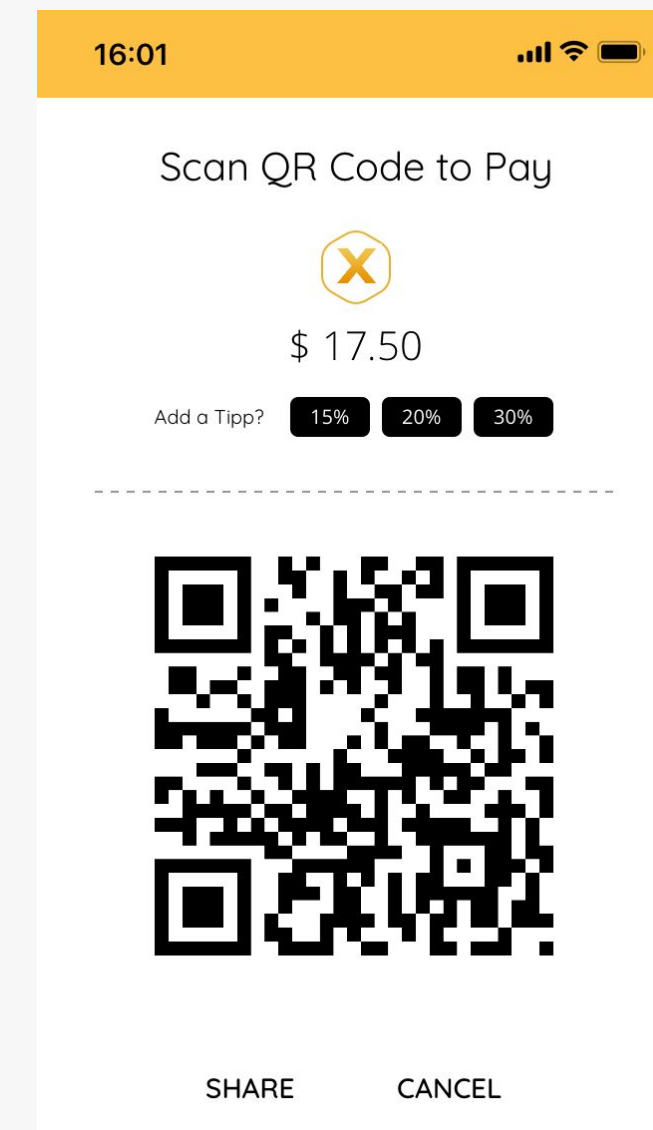

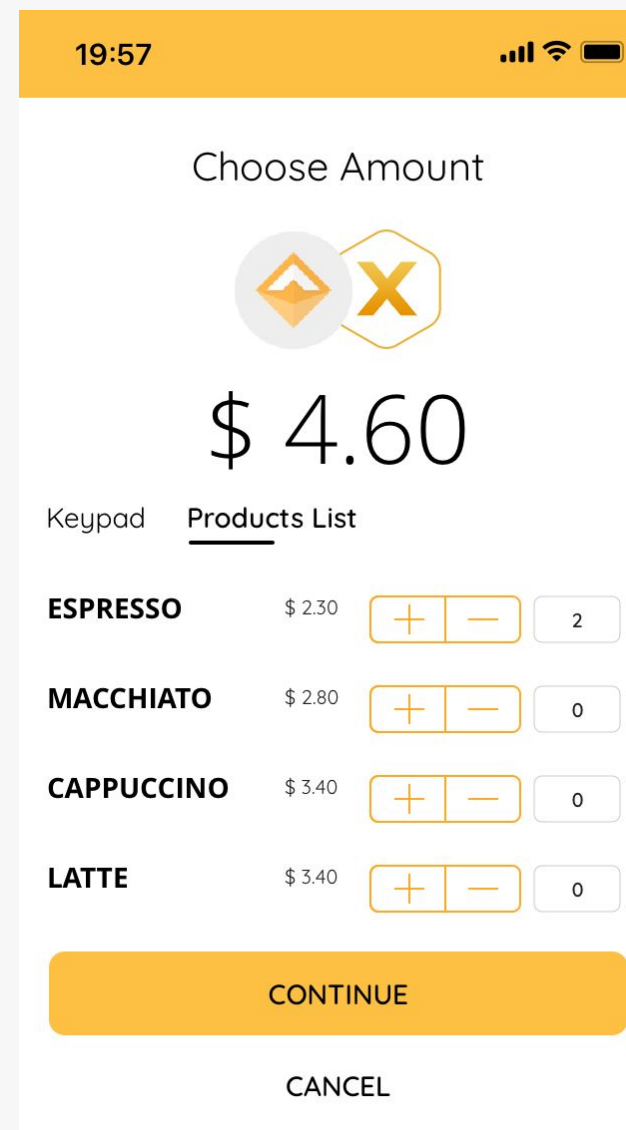

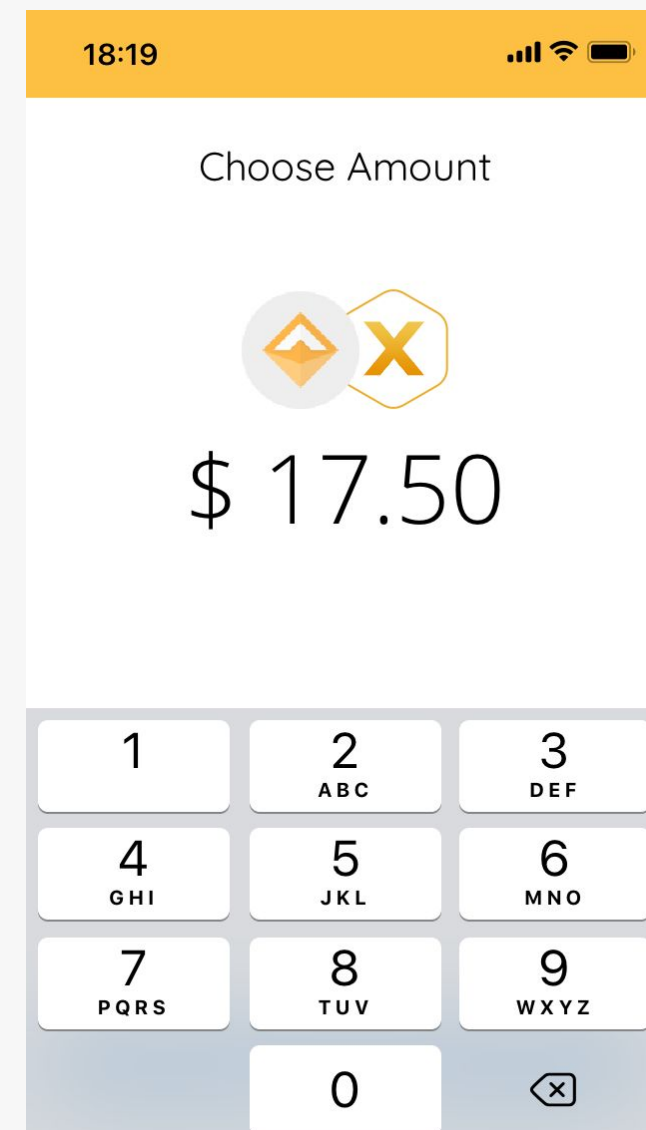

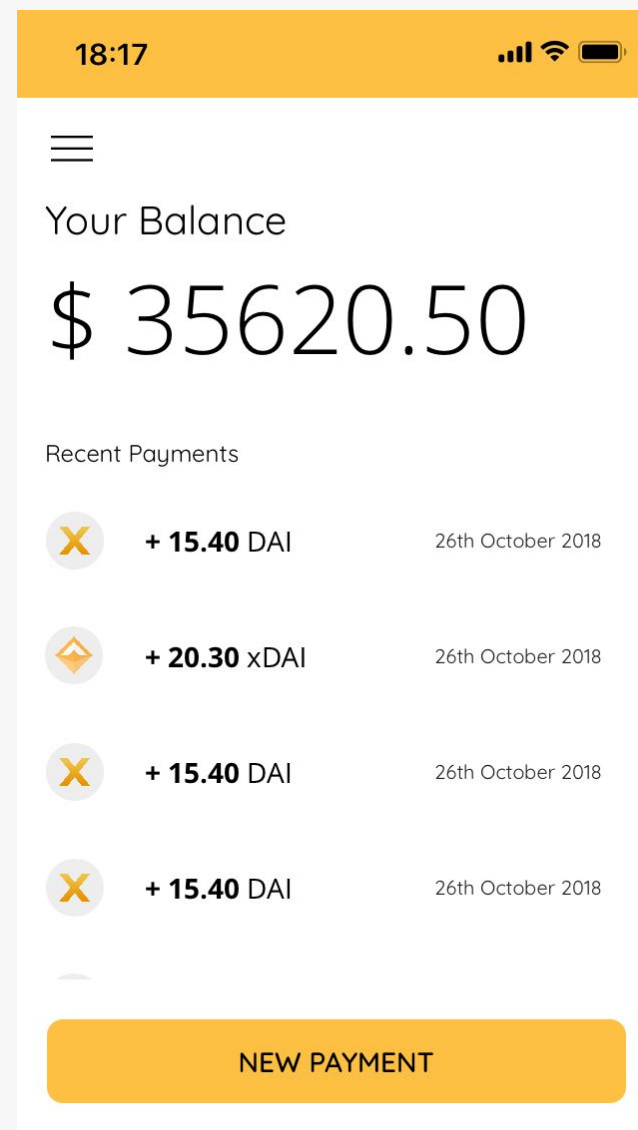

How does it work? Easy!

It will only take 3 simple steps and only a bunch of seconds.
